Trusted Supply Partner for
International Commodity
.Markets

Grain & Oilseed Product Portfolio

Certified cereals and oilseeds tailored for milling, feed, and industrial applications.

Oilseeds & Meals

- Rapeseed / Canola
- Sunflower Seed
- Soybean Meal
- Sunflower Meal (High Protein)

Wheat

- Milling Wheat (high-gluten, 12.5% / 13.5%)
- Feed Wheat
- Soft Wheat

Barley

- Feed Barley

Corn (Maize)

- Yellow Corn (feed grade)

Logistics & Delivery Capability

Akam Zamin operates an integrated grain sourcing, storage, processing, and export network designed to support industrial buyers, food processors, and international commodity traders. Our grain division delivers certified cereals and oilseeds with full traceability from origin to port.

Sourcing Regions

- Black Sea region
- CIS agricultural zones
- Eastern European farms
- Central Asian suppliers
- South America

Capabilities

- Multi-origin procurement
- On-site quality inspection
- Controlled storage & conditioning
- Vessel & containerized export logistics
- Contract-based long-term supply programs

Competitive Advantages

- Stable availability
- Direct producer relationships
- Flexible volumes (containers & full vessels)
- End-to-end documentation & compliance
- Technical knowledge of grain standards

Storage, Processing & Supply Security

Modern storage and processing systems designed to maintain consistency across all shipments.

Supply Security

- Continuous replenishment cycles
- Multi-region sourcing

Quality & Inspection Standards

Standardized testing protocols ensuring grain purity, safety, and compliance.

Inspection Protocols

- Visual & mechanical grading
- Moisture measurement
- Purity and foreign matter screening
- Protein testing (wheat)
- Oil content testing (oilseeds)
- corn & barley

Certification & Compliance

- Phytosanitary Certificate
- Certificate of Origin
- Fumigation Certificate
- Quality Certificate / Lab Report
- Survey Certificates

Handling & Conditioning

- Drying
- Aeration
- Cleaning
- Sorting & grading
- Silo temperature control
- Automatic sampling for export shipments

Logistics & Export Operations

Efficient multimodal logistics and port handling for international grain shipments.

Transport Options

- Bulk vessel loading (Panamax / Handymax)
- Containers with food-grade liners
- Hopper rail wagons

Port Operations

- Terminal storage
- Ship-side delivery
- Conveyor / pneumatic loading
- Pre-shipment inspection
- BL, invoice & packing list preparation

Applications & Contract Framework

- Flour mills
- Food processors
- Animal feed producers
- Poultry & livestock industries
- Commodity traders
- Agro-industrial factories

Delivery Programs

- Spot contracts
- Forward contracts
- Long-term industrial supply
- Seasonal procurement programs

Export Markets

- Middle East · North Africa
- East Africa · South Asia · Southeast Asia

Contract Types

- FOB
- CFR

Akam Zamin provides structured sourcing and export solutions for cereals and oil-seeds, supported by quality inspection, controlled storage, and efficient logistics.

Our network across the Black Sea, CIS, Eastern Europe, and South America ensures year-round availability for global buyers.
